

Skilled Care Households **ALL-INCLUSIVE RATES**

2025

EXPERIENCE NURSING CARE THAT FEELS LIKE HOME

The first of its kind in the area, our innovative, resident-centered household concept transforms the nursing care environment into home.

In an open-concept common area that includes a living room, dining room, and kitchen, residents enjoy the comforting sights, sounds, and smells of home. Imagine staff and residents gathering around the fireplace in the family room, all private rooms decorated with favorite things, made-to-order breakfasts with friends, and activities that help each person to live with purpose.

As a five-star community that's consistently voted the best of Cumberland County, our medical care meets the highest standards. Many of our licensed nursing staff members have been with us for more than five years, and our staff-to-resident ratio is the highest in the area.

To schedule your personal tour, call 717-249-1363.
